

STONEHALL

Shunty Series Truck Mounted Forklift

FAST FACTS

- **Patented Telescopic Boom** design provides superior operator visibility and lower maintenance over masted truck mounted forklifts.
- **Impressive Lift Capacity** of up to 3000kg (6600 lb) and a full free lift height up to 3.36m (11ft).
- **Excellent Forward Reach** capability facilitates unloading a truck or trailer from one side.
- **Quick and Easy** to mount and dismount under its own power from any suitable truck or trailer.
- **Large Cab** or canopy with ergonomic positioning of all controls promotes easy operator access, safety, and comfort.
- **Hydrostatic Transmission** with inching and traction control provides no nonsense productivity.
- **Permanent All Wheel Drive** on equal sized wheels make traversing the roughest terrain easy.
- **Easy Access** to engine and all service areas.
